SUMMARY

Full-Stack Software Engineer with experience building scalable web applications and backend APIs using NestJS, Node.js, React, Next.js, TypeScript, and AWS. Experienced in REST APIs, database systems, Redis, AI-powered automation, and modern UI development. Strong focus on building maintainable, scalable, and performance-oriented software solutions.

TECHNICAL SKILLS

Languages:

TypeScript, JavaScript, Python, Java, C, PHP, HTML5, CSS3

Frontend:

React, Next.js, Material UI, Bootstrap, Shadcn UI

Backend:

Node.js, NestJS, Express.js, REST APIs

Databases:

PostgreSQL, MySQL, MongoDB

Cloud & Infrastructure:

AWS S3, AWS Lambda, Redis, AWS SES

AI & Data:

Python, Scikit-learn, Keras, Machine Learning, Predictive Modeling, Retrieval-Augmented Generation (RAG), Ollama, AnythingLLM

Tools:

Git, GitHub, Wordpress, VS Code, Cursor, Postman

LANGUAGES

English - Professional Working Proficiency

Spanish - Native

SOFT SKILLS

Problem Solving
Analytical Thinking
Adaptability
Team Collaboration
Communication
Continuous Learning

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Desarrolla360

August 2025 - August 2026

- Developed scalable backend services and REST APIs using NestJS and Node.js, supporting modern web applications.
- Built responsive and reusable frontend interfaces using React, Next.js, and Material UI (MUI).
- Implemented Redis for caching and performance optimization, improving application responsiveness and reducing unnecessary database operations.
- Integrated AWS S3 and Lambda into application workflows for cloud-based storage and serverless processing.
- Designed and maintained scalable application architectures focused on performance, reliability, and maintainability.

Front-End Developer

LC Software

March 2025 - August 2025

- Developed and maintained responsive web applications using JavaScript, HTML5, CSS3, and PHP.
- Migrated legacy UI components from W3.CSS to Bootstrap, improving consistency and responsiveness across the application.
- Built reusable JavaScript components and dynamic interfaces to improve maintainability and user experience.
- Collaborated with development teams to troubleshoot UI issues and optimize cross-browser compatibility.

Software Developer Intern — AI & Process Automation

INB Computers

August 2024 – February 2025 (Internship)

- Developed AI-powered solutions to automate internal business processes and repetitive tasks using Python.
- Built data-processing workflows and predictive models to support automated decision-making.
- Implemented local LLM solutions using Ollama and AnythingLLM.
- Developed Retrieval-Augmented Generation (RAG) systems for internal knowledge retrieval and generative responses.
- Analyzed structured data to identify patterns and opportunities for process optimization.

Full-Stack Developer

Aliquam June 2023 – September 2023

- Developed and customized Odoo ERP modules using Python to support business workflows and operational requirements.
- Integrated Odoo functionality with internal applications and database processes.
- Developed and maintained web applications using HTML and JavaScript.
- Automated business processes and managed database operations to improve efficiency.

EDUCATION

2020 - 2025

Universidad Autónoma de Baja California
Bachelor's Degree in Computer Engineering

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Dec 2023

IBM Cybersecurity Analyst Professional Certificate
IBM | Coursera

Sep 2023

Google Data Analytics Professional Certificate
Google

Mar 2022

Google IT Automation with Python Professional Certificate
Google
